GENERAL

Purpose College was registered as an Independent school with the Department of Education in 2013. We have an excellent team of educators on board with qualifications and expertise in the environment of teaching learners with challenged circumstances. Upon admission each learner is evaluated, and the program is planned accordingly to meet his/her needs in order to pass the grade with the best possible outcome. While working within the legal scope and with policies created for the nature of the environment, Purpose College reserves the right to take the learner back to repeat a grade in order to ensure optimum results or improve the learner's performance.

While Purpose College works in collaboration with Healing Wings to help each resident on all levels, each learner will be on a different level emotionally as well as academically.

Parents/Sponsors will receive an introduction to Purpose College after completing the enrolment form and evaluation of the learner's needs will take place. Learner Performance Feedback Reports will be issued after every completed term to highlight the learner's performance during the term and to discuss in depth the educational wellbeing, challenges and concerns. It also serves as a progression measurement tool.

Our academic calendar consists of 4 Terms which are aligned to the Department of Basic Education. Each term learners undertake periodic scheduled tasks, term tests, written and practical assignments (PAT's) as well as mid-year and final examinations.

Purpose College utilizes IMPAQ as its CAPS curriculum provider.

During the Covid-19 Pandemic and National Disaster, to ensure the safety of our learners, Purpose College will be conducting Daily Online Lessons and offering online resources and support lessons for the duration of the National Lockdown. Teachers will have one-on-one physical interactions with learners as well as online teaching, assisted by Purpose College coordinators and a dedicated team of volunteers from Healing Wings. Learners may be assisted by external tutors and supplementary resources to aid teaching.

Physical classrooms are divided according to phases – meaning the senior phase in a group, and FET phase in another group, separated by males and females respectively. The system we follow allows the learner to progress at their own pace, with the assistance of our teachers. A schedule of online and physical timetable is followed daily and different groups conduct lessons simultaneously.

Grades have their own coordinators, who are responsible for feedback and parent communications. Parents are encouraged to direct all educational enquiries directly to the school administration and teachers and not to Healing Wings by e-mailing the Administrator at admin@purposecollege.co.za or to the Principal at marian@purposecollege.co.za.

All education related fees are separate from Therapeutic Programme and related fees. Tuck shop fees fall under Therapeutic fees as the school does not work with the tuck shop. School payments should be made into the account provided on your invoice for schooling with clear reference as provided in red. Statements are sent out monthly, and school fees are payable in advance by the 28th of the month. In case a learner is removed

Enrolment Form

prematurely, the registration fees are not refundable. A 30-day notice required for termination of schooling. The account holder will be charged for a month of schooling in the case where no notice period is given. Only written notice will be recognised.

Learners who take subjects that we cannot offer will be evaluated, and in case a subject change can be made this will be required (the learner's needs will be considered in these instances in terms of workload and career goals). Only Afrikaans and English can be offered as Home languages or First Additional Languages. Should a learner be exempt from taking Afrikaans as a language, an Exemption confirmation needs to be provided by the parents upon enrolment.

Concessions: In order to combat and overcome learning barriers, parents may apply for concessions. Concessions application and administration shall remain the sole responsibility of the parents. Learners who had a concession approved at a previous examination board will be granted the same concession only if our examination board approves it and deems it valid. Language concessions only apply to learners born outside of South Africa or who were residing outside of South Africa. No other language concessions will be approved.

Learners who are on home-schooling programs will be registered in the grade according to the national curriculum requirements as stipulated in the SA Education Act.

School is compulsory for residents taking part in the Healing Wings Therapeutic Programme. Should a learner be expelled from Healing Wings, such learner may be removed from continuing schooling with Purpose College. Purpose College reserves the right and may recommend such a learner to continue schooling with Purpose College under an alternative schooling programme. This is to the sole discretion of Purpose College under certain conditions.
