THE PROGRAMME

The Healing Wings programme is based on a daily routine designed to encourage the residents to contribute to all facets of social interaction and normal behavioural patterns, with the aim of gaining self-confidence and respect. Guidance is provided in a personal and caring environment in which the residents receive unconditional support in their recovery. All counselling and therapies, whether in group meetings or one-on-one sessions, are primarily in English, although individuals can elect to be counselled in Afrikaans if necessary.

Programme routine	
<ul style="list-style-type: none"> • Assigned duties 	<ul style="list-style-type: none"> • Drug Education

<ul style="list-style-type: none"> • Life Skills group discussions 	<ul style="list-style-type: none"> • *Parental Skills Training

**As part of the Healing Wings' on-going commitment to the community, a development project has been initiated whereby persons in the latter stage of recovery pass on individual skills and services to the local community. Service to society forms an integral part of a successful recovery lifestyle.*

ASSESSMENT AND ORIENTATION

Each resident will undergo a background assessment with a social worker and a medical assessment with a professional nurse and will be introduced to the Healing Wings Program in a thorough orientation session, where the full process ahead will be explained and the resident will be introduced to his/her individual counsellor and social worker.

Assessments are conducted by a multi-disciplinary team and individual counsellors, with the focus being on assisting the resident in developing and achieving treatment goals. Parents/caregivers will receive a written progress report at 1, 3 and 5 months (followed by quarterly reports) with telephonic updates every two weeks. A recommendation regarding further treatment will be made in the 5-month report. Parents/caregivers are also encouraged to contact the relevant individual counsellor directly on a regular basis.

FAMILY PROGRAMME

Healing Wings South Africa facilitates a family program for families/care givers of residents, involving feedback on damage letters, con-joint family sessions and attendance at external support groups.

Families/Care givers are encouraged to participate and assist in the process of the recovery program. The following resources are in place for families/caregivers to maintain involvement for the duration of the resident's program and to assist in the successful reintegration of the resident back into the family structure and society.

SUPPORT STRUCTURES

The management team of Healing Wings recommends that all family members attend a support group. Experience teaches us that those family members who have a better understanding of the recovery process are better equipped to deal with and assist their loved ones in remaining sober and drug- free, and in successfully reintegrating into society. Attendance at support groups is mandatory as part of a relapse prevention plan, and it is advised that families begin attendance prior to the resident's departure. There are often separate groups for family support and for the addict that run simultaneously. For a list of support groups please go to our website www.healingwings.co.za

RECOMMENDED LIST OF REQUIREMENTS FOR MALES AND FEMALES

Males	Females
